- CSS
- JavaScript
- Data Entry
- Type writing
- Front End Design and Development

ABOUT ME

I'm a B.Sc Graduate with a specialization in Mathematics from Bharathidasan University at Trichy, Tamil Nadu.
As a B.Sc Mathematics graduate, I bring a strong foundation in logic and problem-solving to the world of web development. My passion is to build user-friendly, responsive, and efficient websites using modern technologies like HTML, CSS, and JavaScript.
I am a lifelong learner, constantly exploring new tools and techniques to improve my craft. I'm currently looking for an opportunity to apply my skills to real-world projects and contribute to a creative team.
